

FAMILY ENROLLMENT PROGRAM

We are looking forward to meeting you at your first visit in our office.

The American Association of Orthodontics suggests initial screening appointments be scheduled as early as age seven. Dr. Johnson feels that many orthodontic problems can be intercepted. Ideally, we like to see our new clients for their first examination between the ages of seven and ten to determine if early treatment would be beneficial. Our goal is to treat our clients at a time when maximum benefits are possible.

Please take this opportunity to enroll members for a courtesy screening at the time of their seventh birthday. This brief examination includes a written report (of Dr. Johnson's findings and recommendations) to your primary care dentist.

Please list any family members that you would like to have examined:

Name: _____ Birthdate: _____

Name: _____ Birthdate: _____

Name: _____ Birthdate: _____

Please list any family members (including parents) you would like us to see who are over the age of seven:

Name: _____ Birthdate: _____

Name: _____ Birthdate: _____

We will notify you when it is time to schedule these appointments. We look forward to working with your family.

Thank you, and welcome to Avon Orthodontics.
